

MICRO-TOUCH[®] NITRA-TEX[™] E.P.

Performance Series

Nitrile, powder-free, extended cuff examination glove with strong barrier protection

This non-sterile glove is made from a softer synthetic formulation to offer a comfortable fit and feel. It also has an excellent resistance from a broad range of commonly used chemicals. High tear resistance ensures optimal protection, and a chlorinated inner coating facilitates ease of donning. With an extended cuff, this glove is suitable for any situation where additional wrist protection is required.

KEY FEATURES AND BENEFITS:

- Additional length for extra protection.
- Excellent resistance to a broad range of commonly used chemicals
- Protects from latex Type I allergy
- Tested for use with chemotherapy drugs*

* See product packaging or contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

WARNING: No glove completely protects against all chemicals. Users should test the suitability of this product against the specific chemicals and environment where used.

Recommended For

- Extra protection over the wrist and arm
- Sustained, high-risk examination procedures
- Environmentally friendly facilities
- Tested for use with chemotherapy drugs
- Protection from Type I latex allergy in HCW's or patients

FEATURED TECHNOLOGIES

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
