

MICRO-TOUCH[®] AFFINITY[™]

Performance Series

Neoprene, powder-free examination glove with excellent elasticity and barrier protection

This non-sterile neoprene synthetic formulation provides superior protection, comfort, fit, elasticity and tactile sensitivity with excellent resistance to a broad range of chemicals.

KEY FEATURES AND BENEFITS:

- Offers comfort level similar to latex.
- Textured finger surfaces provide a secure grip in both dry and wet conditions for enhanced instrument handling.
- Excellent tear and puncture resistance
- Protects from latex Type I allergy
- Tested for use with chemotherapy drugs*

* See product packaging or contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

WARNING: No glove completely protects against all chemicals. Users should test the suitability of this product against the specific chemicals and environment where used.

Recommended For

- Tested for use with chemotherapy drugs
- Protection from Type I latex allergy in HCW's or patients
- Enhanced grip in wet environments
- Sustained, high-risk examination procedures

FEATURED TECHNOLOGIES

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
